SlimBrique®

SAME COLORS. SAME TEXTURE.

It's time to think outside the brick and transform your home or office in ways you never thought was possible with SlimBrique® from BrickCraft - America's Brick Yard.

Our natural brick tiles are truly unique. Cut from one of our **26** 100% kiln-fired clay brick colors, these 5/8" thick pieces rely on the natural pigments of the clay for its color, giving SlimBrique® a vast array of patterns and hues. The brick tiles have a sawed back, carry the rough texture of the original brick throughout the layers and will give your project that much sought after look of genuine brick. **SlimBrique® is available in the same kiln run as your full brick order upon request.**

Brickcraft's SlimBrique® offers an easy alternative to a traditional brick wall look. Our thin bricks are lighter than conventional brick, and are ideal for internal or external applications - from man caves and kitchens to accents in a hallway.

Benefits of SlimBrique®

LIGHTWEIGHT | ENVIRONMENTAL FRIENDLY | MATCHES FULL BRICK | EASY TO INSTALL | VERSATILE INSIDE AND OUT

THE IMPACT OF MORTAR.

distinctive mortar techniques

The color hue and the mortar joint method of your project can make a big impact on the final look of your BrickCraft installation.

Any of the six popular grout techniques shown here will not only give you the old-world charm you desire, but will ensure watertight properties and maintain the structural integrity of free standing walls.

CONCAVE | MORTAR JOINT

RAKED | MORTAR JOINT

FLUSH BRUSHED | MORTAR JOINT
