Imagine an outdoor space where you can go to relax, to entertain and to spend time with the people you love best. An outdoor space that is a memory creator, where dreams become realities.

With Keystone Hardscapes, your dreams are only limited by your imagination.

Keystone Hardscapes brings together the best elements of three hardscapes industry leaders: Keystone Retaining Wall Systems, Pavestone & Arizona Best Block. This new brand is built on a dedication to providing you with unrivaled product selection, quality, performance and customer service. We help bring dreams to life - creating outdoor spaces that are as enchanting as they are functional.

Since the 1980s, we have set the standard for excellence and innovation in the hardscapes industry. Our paving, wall and outdoor living elements are favorites of homeowners, contractors, designers and developers alike. Locally made products, nationally trusted brand. Look to us to help transform your residential or commercial property.

PLAZA STONE - Rectangles & Squares

Plaza Stone is a timeless paving stone with an impressionistic embossed surface profile. It creates a gentle and warm effect by combining soft curved edges with rectangular and square stones. Plaza Stone is available in many colors to accommodate the most discriminating tastes and desires. It uses large-scale patterns to create interest and drama for commercial landscaping, while the stone’s texture and pattern harmonize with surrounding buildings and site furnishings. The expanded dimensions of the Plaza Stone Giant adds visual drama to larger outdoor spaces.

The Venetian Stone paver is the latest development in enhanced pavements from Keystone Hardscapes. Its uniquely attractive cleft surface sets it apart from ordinary pavers. This texture recalls Old World charm and invokes a traditional convention. The larger scale of Venetian Stone pavers lends itself to stately residential settings and more expansive commercial applications. Its modular pattern equalizes the scale of any project and is fitting to most any architectural elements.

The Harington 3-pc retaining wall system evokes the texture and look of natural stone, making a striking architectural statement. The hand-hewn facing creates a stone-like appearance while the rear lip eliminates setback and alignment issues to speed construction. Available in blended earth tone colors, these retaining wall units are a reliable, easy-to-install alternative to natural stone walls.

COLOR VARIATIONS
As in all natural materials, color in paving stones and wall stones has inherent variations. Paver and wall color is affected by the variances in the raw materials, concrete mixture, moisture content, climactic conditions, and other variations. Therefore, the colors shown are approximate representations of paver and wall colors, but should not be expected to be an exact match of what will be delivered.

THE NATURE OF EFFLORESCENCE
Another cause of color variation in paving stones and wall stones may be the natural phenomenon called efflorescence. Efflorescence, a deposit of white salts consisting of mostly calcium carbonate, may appear as a white powder on the paver or wall surface and in no way affects the structural integrity. This phenomenon occurs in all concrete and although it cannot be completely prevented from occurring, efflorescence generally will weather off and disappear over time or can be removed with cleaners at the job site.
