HARINGTON™ 3-PC

Just imagine the possibilities...

Imagine an outdoor space where you can go to relax, to entertain and to spend time with the people you love best. An outdoor space that is a memory creator, where dreams become realities.

With Keystone Hardscapes, your dreams are only limited by your imagination.

Keystone Hardscapes by Pavestone brings together the best elements of two hardscapes industry leaders, Keystone Retaining Wall Systems and Pavestone. This new brand is built on a dedication to providing you with unrivaled product selection, quality, performance and customer service. We help bring dreams to life - creating outdoor spaces that are as enchanting as they are functional.

Since the 1980s, we have set the standard for excellence and innovation in the hardscapes industry. Our paving, wall and outdoor living elements are favorites of homeowners, contractors, designers and developers alike. Locally made products, nationally trusted brand. Look to us to help transform your residential or commercial property.

COPING STONE

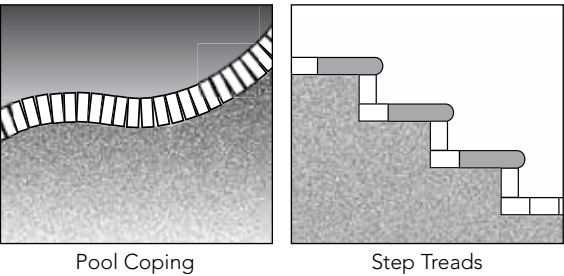

The Coping Stone is designed to complement any concrete pave stone pedestrian application. It can be used for pool coping, step treads and decorative patio borders. It allows the designer consistency in the paver pavement’s visual edge. This consistency will provide confidence that the edge profile will parallel with the finished project paving surface.

HOLLAND STONE

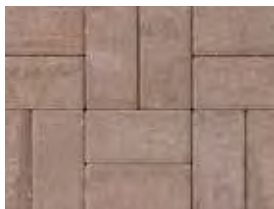

With the renowned durability of interlocking paver stones, Holland Stone offers the Old World charm of a simple paver shape. The rectangular shape of Holland Stone can be installed in a number of fascinating patterns to produce simple or intricate designs. Mix these patterns with any of the available standard colors or combination of colors and you've got the potential for an architectural effect limited only by the imagination. The thin profile of the 45mm unit is perfect for residential and commercial non-vehicular applications.

PLAZA STONE - 60mm Rectangles & Squares

Plaza Stone is a timeless paving stone with an impressionistic embossed surface profile. It creates a gentle and warm effect by combining soft curved edges with rectangular and square stones. Plaza Stone is available in many colors to accommodate the most discriminating tastes and desires. It uses large-scale patterns to create interest and drama for commercial landscaping, while the stone's texture and pattern harmonize with surrounding buildings and site furnishings.

VENETIAN[®] STONE

The Venetian Stone paver is the latest development in enhanced pavements from Keystone Hardscapes. Its uniquely attractive cleft surface sets it apart from ordinary pavers. This texture recalls Old World charm and invokes a traditional convention. The larger scale of Venetian Stone pavers lends itself to stately residential settings and more expansive commercial applications. Its modular pattern equalizes the scale of any project and is fitting to most any architectural elements.

HARINGTON™ 3-pc

The Harington 3-pc retaining wall system evokes the texture and look of natural stone, making a striking architectural statement. The hand-hewn facing creates a stone-like appearance while the rear lip eliminates setback and alignment issues to speed construction. Available in blended earth tone colors, these retaining wall units are a reliable, easy-to-install alternative to natural stone walls.

RUMBLESTONE® COLLECTION

Reminiscent of our fondest childhood toys, the innovative RumbleStone collection provides a set of rustic building blocks for your outdoor hardscape projects. Whether your project is simple or complex, large or small, RumbleStone's possibilities for creative expression are as limitless as your inner child's imagination. The six tumbled RumbleStone sizes can be assembled in an endless variety of configurations and orientations. In addition to simple running bond patterns, the stones can be easily stacked with insets, moved forward and backward, horizontally and vertically, for more aesthetically pleasing visual relief and texture. What will you create?

ACCESSORIES

NATURAL LOOK SEALER – Water-based penetrating silicone sealer waterproofs and protects concrete, brick, masonry, pavers, and stucco surfaces. Clear sealer does not change the surface appearance. Seals from water, salts, and oils. UV Resistant.

Use For: Driveways • Patios • Walls • Sidewalks • Pre-stress panels • Retaining walls • Tunnels • Loading docks • Bridge columns • Tunnels • Curbs/steps

WET LOOK HIGH GLOSS SEALER – Water-based penetrating silicone sealer waterproofs and enhances the color of concrete, masonry, brick, paver, and natural stone surfaces. Seals from acids, grease, food stains, oil, salt, and more. UV resistant.

Use For: Decorative concrete • Pavers • Natural stone • Exposed aggregate • Brick • Stucco

COMMERCIAL GRADE POLYURETHANE CONSTRUCTION ADHESIVE – High performance, commercial grade adhesive designed for permanently bonding concrete, brick, marble, stone, wood, glass, aluminum, steel, PVC and tile.

Use For: Repairing broken concrete • Bonding retaining wall block and caps

POLYMERIC SAND – Polymeric Sand is a precise mixture of polymer binders and clean natural sand. Polymeric Sand will bond with the pavers/stones adding strength to the joint, as well as, reliability to the pavement system. It is ideal for use on any paver surface such as sloping areas, driveways, patios, pool decks, sidewalks, etc.

Use For: Driveways • Sidewalks • Pool decks • Patios

BEFORE - NO SEALER

AFTER - WITH SEALER

COLOR VARIATIONS

As in all natural materials, color in paving stones and wall stones has inherent variations. Paver and wall color is affected by the variances in the raw materials, concrete mixture, moisture content, climactic conditions, and other variations. Therefore, the colors shown are approximate representations of paver and wall colors, but should not be expected to be an exact match of what will be delivered.

THE NATURE OF EFFLORESCENCE

Another cause of color variation in paving stones and wall stones may be the natural phenomenon called efflorescence. Efflorescence, a deposit of white salts consisting of mostly calcium carbonate, may appear as a white powder on the paver or wall surface and in no way affects the structural integrity. This phenomenon occurs in all concrete and although it cannot be completely prevented from occurring, efflorescence generally will weather off and disappear over time or can be removed with cleaners at the job site.

QUIKRETE and its subsidiaries (collectively QUIKRETE) reserve the right to improve its products and make changes to its specification and design without notice. The information contained herein has been compiled by QUIKRETE and to the best of its knowledge, accurately represents Keystone Hardscapes products and how it may be used in the applications which are illustrated. Site conditions, including load pressures acting on the wall, soil types and drainage conditions, may vary. Final determination of the suitability of the product for the use contemplated and the manner of product use are the sole responsibility of the user. Good construction practices and local building codes require the use of an engineered design when constructing retaining walls or free-standing walls in many conditions. Structural design and analysis should be provided by a qualified engineer.
