TIMELESS ET RENDING

The outdoor living trend is here to stay.
That's why Belgard* products are
manufactured and designed to both define
the trends and stand the test of time.
You set the style.

WE'LL PAVE THE WAY

RANDOM EDGE SILHOUETTES ARE RETURNING TO FOCUS IN CONTEMPORARY WAYS.

TRENDING & TIMELESS TIP

GO'GREIGE'

The year's most sought after neutral isn't going out of style any time soon. Its beauty is in its versatility. The addition of gray to beige creates a richer hue that can work in a cool or warm color scheme, meaning your hardscapes will continue to coordinate with evolving styles.

DEFINE YOUR SPACE

Incorporating multiple styles is a great way to segment your outdoor living areas into rooms without roofs. Adding a sleek border with a more natural stone, like in the image at right, creates the cozy feeling of a hearth rug in front of the fireplace.

OUTDOOR OASIS DREAM DECK PERFECT PATIO

The primary goal in designing an outdoor living room is to create a space that invites you to spend time outdoors. Whether you enjoy entertaining large groups or prefer an intimate space for curling up with a good book, you bring life outside.

WE'LL PAVE THE WAY

FREESTANDING OR RETAINING

Knowing the difference between retaining and freestanding walls can have a positive impact on your project and lead to a more enjoyable outdoor space.

Freestanding walls allow you to divide your outdoor living space into different areas. They provide visual interest and can make even the largest yard feel more intimate. Freestanding walls easily incorporate with other features like fireplaces or outdoor kitchens to provide a cohesive look.

Retaining walls can have multiple purposes. Some help to increase usable space, whether that be a flower bed or added yard space, while other retaining walls help to prevent erosion. Either application is made possible by a wall system that holds back soil and properly manages drainage. Larger walls also utilize soil reinforcement for added strength and long-term stability.

ACCESSORIES

The divine is in the details. Belgard offers caps, columns and other accessories to complement any hardscape design. Mix textures to add a modern look to a rough-hewn wallface. Include a cap in a complementing color to add visual interest. The possibilities are endless!

Consult a Belgard Certified contractor for information on all of our wall products and to receive project design assistance through Belgard Design Studio.

ES SLAB

CLEAN

MODERN

OVERSIZED

NOTE: For paving slab applications, some contractors prefer to pre-compact screeded bedding sand with a small plate compactor. If

pre-compaction is done, care must be taken

to leave no indentations in the bedding sand surface from the plate compactor. These can be removed by screeding the surface to create a thin layer (6 - 10mm) of uncompacted sand (also known as fluffing). Paving slabs do not interlock and therefore do not spread loads to their neighbors via joint sand. Given this

condition, there is no requirement to force bedding sand into the bottom of the joints when compacting the units on uncompacted bedding sand, as is done with interlocking concrete pavers. Compacting large slab units could lead to unnecessary breakage, so many times contractors may choose to use a mallet to tamp the slabs into place once laid. Slabs do not meet the standard compressive and flexural strengths of interlocking concrete pavers, therefore,

Belgard® will not be responsible for breakage

to Moduline Slabs caused by compaction.

BEAUTY & STRENGTH IN A LOW PROFILE

BENEFITS OF PORCELAIN

- Incredibly high breakage loads, up to 2,000 pounds.
- With a tight surface texture, these pavers clean quickly with normal household cleaners.
- Unaffected by alkalis, acids, chemical agents, salt and other deicing materials.
- High density and ultra-low absorption rate creates a tight paver surface, it fends off surface mold, moss, dirt and other types of stains.
- Structured top textures formed on the surface create non-slip surfaces.
- 100% frost-free and its properties remain unaffected by Freeze-Thaw.

Techniseal* Protector for Concrete Pavers (Top-Bottom): Natural Look Matte Finish, Clear Look Semi-Gloss Finish, Color Boost Matte Finish, Wet Look Gloss Finish

PROTECT YOUR INVESTMENT

Belgard Products are designed to last for generations. Many homeowners choose to further protect and beautify their investment by applying a protective sealer. Adding a sealer can enhance the beauty of a project by highlighting the color and texture of the surface. It will also offer protection from stains like oil, grease or other accidental leaks.

THE ULTIMATE PROTECTION SYSTEM

Techniseal's 3-step treatment system guarantees the best results. Remove stains with a specially formulated Stain Remover, prepare the surface with Paver Prep, then apply a Protector that delivers the look you want.

A hardscape project is an important investment in your home and selecting the right contractor is a critical decision. Don't be afraid to ask a lot of questions. It's important that you get to know your contractor so that you can work together as a team to create your ideal outdoor living space.

WHAT TO ASK

Are you certified?

Inquire about specialized certifications and training from organizations like the Interlocking Concrete Paver Institute® (ICPI).

All Belgard® Contractors are required to have at least one team member who is ICPI certified and must meet annual requirements to maintain the company's status.

Are you insured?

It's important to hire a contractor who can provide proof of insurance and is able to guarantee their work for a period of at least three years after the installation.

Can I get a reference?

Ask for customer references and to see photos of past projects, both for design ideas and to get a sense of the contractor's level of creativity, expertise and work ethic. Ask for an address or two and check out the workmanship up close, with the homeowner's permission of course.

What isn't covered in your estimate?

Determine upfront which aspects of the project the contractor can handle. Will their team manage landscaping, plumbing, irrigation and lighting or will you be expected to handle this separately?

What's the schedule?

Be sure to get a complete understanding of payment terms, estimated start date and turn-around time.

Belgard is your resource for outdoor living inspiration, planning and installation. From charming walkways and welcoming patios to gourmet outdoor kitchens – the possibilities are endless. Let us help you visualize a new outdoor space using virtual reality.

PROJECT CONSIDERATIONS

- The general project amount of sand installation, hardscape installation, polymeric sand installation, addition paver cleaning and sealing.
- The timeline for your hardscaping project depends on several factors including the size and scale of the project, permits needed (which vary by municipality), and the acceptance of any community organizations. such as homeowner associations or architectural review boards.
- All outdoor projects are subject to weather conditions so there could always be delays.
- Spring and summer are the busiest periods for contractors, so start your planning during the winter months or consider scheduling your project in slower periods.
- Confirm all the work you'd like done is contracted and scheduled up front. Adding additional features will dear the schedule and add to the total cost.
- Check with your contractor to ensure that all items being installed are readily available or match your timehaw
- If Be sure to discuss with your neighbors any construction phases that might be disruptive so that you can communicate that information to them as needed.
- If you have a large project and would like to phase out construction over time, be sure to plan the entire design before you get started so that you can plan for any electrical, plumbing, drainage or landscaping needs.
- Consider building your backyard before any projects in the front yard to avoid damaging your front yard.
- When your project is finished, walk through it with your contractor to ensure the quality of the install, and ensure you have receipts for materials / labor and have registered your warranty.
- Always take into consideration the next step of the project: the contractor to soal the pavers? Plan ahead to make sure you finalize your project and can enjoy it for years to come.
- 8 2010 BELGARD PROJECT GUIDE

TIMELINE

PHASE 1: 4-6 weeks

- Consider how you will use the space and your budget
- Framise styles and colors that work with your house or landscape
- Gar inspiration online
- Research approval requirements for your municipality or HOA
- Set a budget

PHASE 3: 2-12 weeks

- Time of the installation will vary depending on the scope of the project
- Check with the contractor to ensure that the materials ordered have arrived and
- Connect with your contractor throughout the project to ensure it is progressing as planner

PEACE OF MIND, GUARANTEED

LIFETIME TRANSFERABLE LIMITED WARRANTY

Oldcastle® APG, Inc. ("Belgard") is proud to inform you that all of our interlocking concrete paver and retaining walls ("Products") meet and/ or exceed the requirements of ASTM C-936 and ASTM C-1372. Belgard® guarantees its Products against these standards for the lifetime of the Product defined by ICPI. This guarantee does not apply to splitting, chipping or other breakage that could be caused by impact, abrasion or overloading. This warranty is transferable. The original proof of purchase is required.

This warranty is only valid if the material is installed under the guidelines of the ICPI (www.ICPI.org), The NCMA (www.ncma.org) or the Belgard Installation Guideline Manual. Improper installation voids this warranty. This warranty is for residential applications only and does not apply to commercial applications. It is recommended that the job be installed by a Belgard Contractor Program participant who guarantees their workmanship for a minimum of 3 years from the date of install. For warranty service, contact belgard at 1-877-BELGARD. A service representative will investigate your claim within 10 business days. If the Belgard product fails to meet the specifications, Belgard will replace the defective product at no charge. Color matching cannot be guaranteed. Belgard will not be responsible for any replacement labor, consequential damages or incidental damages. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow for the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.
