WHAT IS “DUTCH” QUALITY?

It is craft shaped by a code. A way jobs are done. And a devotion to doing them. With patience and persistence. Reverence and honor. Amish values and a pioneer’s spirit.

A belief in hard work, tempered skills and straightforward solutions. Good boots, frank talk and calloused hands.

A belief in beauty and quality and value.
In perfect, balanced measures.

A belief shared by every mason and yardhand. Every soul who builds with us and backs us up. Forging a common bond that isn’t all that common anymore.

Dutch Quality is our name, but it is so, so much more.
It is a pledge. It is our word. And it is set in stone.

OUR PRODUCTS

With equal parts pride and precision, Dutch Quality craftsmen create a wide selection of stone styles, colors and sizes — even thoughtfully designed accessories — for your interior, exterior, residential and commercial projects.

Our original master molds are meticulously crafted to capture the rich beauty and complex character of natural stone. It's a process that requires both art and technology.

Not to mention, the steadfast support of our customers. With customer service that's as finely hewn to the values of "Dutch" quality as our products. It's our solemn commitment: To make certain we're always aligned with your project, budget and timing. And above all, your style.

Otherwise, it just wouldn't be Dutch Quality Stone.

“For more than two decades, Dutch Quality has built a reputation for producing a fine quality product. Their consistency in style, coloring and packaging makes them pleasing to both the eye of the customer and the hand of the mason.”

WARRANTY

Dutch Quality Stone™ Inc., warrants, subject to the terms and conditions of the full written warranty, that its manufactured concrete products shall be free from defect in materials, manufacturing, and workmanship for a period of 50 years from the date of purchase. The manufacturer will not be liable for any cracked or damaged product due to mishandling, building settlement, improper installation, discoloration due to airborne contaminants, or acts of God beyond the control of the manufacturer. This warranty is limited to the original purchaser and may not be transferred. (Complete manufacturer's warranty is available on our website: dutchqualitystone.com)

Additional Notes

Just as natural stone will vary in color, Dutch Quality Stone™ will reflect some degree of variation in color.

Actual stone color may vary from brochure. It may also vary from existing structures.

Veneer stone is not intended for and will not hold up to foot traffic.

Like any other cement product, under certain weather temperatures and conditions, stone may have signs of efflorescence.

Just as natural stone shows signs of scuffing, occasionally Dutch Quality Stone™ will have light scuffing.

With proper handling, there should not be heavy scuffing.

Dutch Quality Stone™ is not responsible for discoloration due to run-off from adjacent building materials.

For answers to any questions not covered in this brochure, please contact us: 1-877-359-7866

For detailed installation instructions, specifications, technical information, and product evaluations, visit us online at dutchqualitystone.com.

Dutch Quality Stone™ meets or exceeds all ICC acceptance criteria.
See ICC-ES Evaluation Report No. 1942 at www.icc-es.org.

Because Dutch Quality Stone replicates natural stone, variations should be expected. Even though colors in this brochure are as close to the actual stone as possible, photographic and printing techniques — and actual viewing conditions — can alter perception of color. We recommend obtaining a sample of Dutch Quality Stone before placing an order.

If you would like more information on prices, availability of stone, the name of your local distributor, or answers to any questions not covered in this brochure, please contact us. We are happy to assist you with your stone building plans. Detailed installation instructions, specifications, technical information, and test data are available on our website at: dutchqualitystone.com
